## THE MEMPHS DATLY APPEAL

ESTABLISHED 1840.

THE water question, after all that has been said and done by the citizens and all the profuse asseverations and promises of President Latham, is just where it was six months ago. Nothing has been accom-plished and nothing is likely to be until the courts or the Legislature interfere. What ought to be done is clearly set forth in the report of Messrs. Farrington, Jones and Menken, but Mr. Latham doubts if this can be done-we suppose he means short of an expenditure that would swamp his company. As it stands it is a nice mess of "pi," that nothing short of an act of the Legislature or an order of court can

sort out to the advantage of the people. Col. A. S. Colyan, of the Nashville American, recently made a speech at the opening of the Nashville and Florence railroad-part of which we reproduce in the Railroad Department of the APPEAL of to-day-at the conclusion of which he gave these significant sentences: "Tennesseams have great reputation for activity | Special to the Appeal.) in politics. Kenna, the junior Senator of West Virginia, has no fortune to speak of, except youth, health and courage.

The Kentucky Senators are both well off. Beck has a fine estate near Lexington and a comfortable residence in the town itself, besides some interests in the West. It is stated that he is worth about \$250,000.

Williams is a large land-owner in one of the finest sections of Kentucky, and is rated perhaps \$50,000 below his colleague in fortune.

the terror of all subordinates. He was highly successful as a Shakespearean im-personator, and drew full houses at the Park Theater, New York, thus awakening the jealousy of Forrest. This eventually led to the Astor place riot. On this occa-sion Forrest's crowd of Bowery roughs were determined to drive Macready from

the stage, and twenty lives were sacrificed to one man's implacable wrath. Ma-cready's theatrical reign extended forty SPRINGFIELD, MO.

The Recent Cyclone and Its Results

SPRINGFIELD, Mo., November 12.-The theme that is still uppermost in the minds wrecked a portion of our city last week. As some greatly exaggerated reports in regard to this storm have gone abroad, it may be of some interest to know that the total number of deaths will not exceed plenty of places for the remainder. In addition to the cash subscriptions the ladies have secured large donations of clothing, material, etc. The greater por-

is moving very cautiously. Last week the various members of the city government, various members of the city government, accompanied by a few invited citizens, made a tour of inspection, going to the Spring Valley reservoir, three miles north of North Springfield. It is claimed by nearly all of the party that the surface drainage of North Springfield runs into the reservoir above-mentioned, rendering the water in rainy seasons impure. This will doubtless make some trouble between the city and the water company, but beyond a doubt it will be speedily settled. Aside from the surface drainage we have

Aside from the surface drainage we have the best water supply in the West, and it is a question whether the impurities seeting recently and joined in the gener howl and kick against the recent civil rights decision. They made so much noise that there seemed to be some danger of their getting out of the Republican harness. Accordingly the Hon. Chaunce Filley, the chairman of the Repul state Central Committee, came out from St. Louis last week to tell the "man and brother" that it was very wrong to kick

against the decision; it was worse to rebel against the grand old party, and worse than all to think of uniting with the De-mocracy. And now peace reigns once more in the kingdom of Ham. struction next door to me interfer NOTES. There is as yet no clew to the burgla who blew open the safes of James Kirby and Sutter & Bryan.
